Text: New licenses and the XF4 DX-pedition!

Dear Andy,

Today, I spoke with Victor, XE1VIC and apparently the Mexican naval ship that was going to take the group to the island cannot stay for the length of time that the operation requires. Now Victor is saying the operation needs to be postponed for now! I will let you know if I hear anything more.

Ed received the following U.S. amateur radio licenses. Let them know.

1. V. Luchansky, KF2QX – Advanced Class.
2. V. Zaushitsyn, N2WIO – General Class
3. L. Sharapov, N2WIP – Technician Class
4. S. Voloshin, N2WIQ – Technician Class
5. L. Radchenko, N2WIL – General Class
6. D. Zaslavsky, N2WIN – General Class
7. A. Mojaev N2WIM – General class

If you speak to Larry, UA6HZ, please thank him on my behalf for taking care of my R3/ license. I really appreciate it.

Will you still travel to the United States whether or not the XF4 operation is a go or not?

I am watching events in Russia very closely!

73 to you and family,

Phil, WB2DHY
